SUMMARY

Network technician with 6+ years of hands-on ISP experience across FWA and FTTH. I find faults fast, keep wireless links running efficiently and document networks so the whole team can troubleshoot them. Self-taught in AI automation (RAG, local LLMs, Python).

CORE CAPABILITIES

- **Network troubleshooting:** first diagnosis in under 5 minutes and most incidents resolved in about 10, checking end-to-end reachability (CPE/antenna, ONT, router), misconfigurations, DNS and firewall rules; ~50 tickets per week plus on-site work.
- **Wireless & access networks:** RF interference analysis and frequency re-planning on MikroTik and RADWIN sectors to improve performance and throughput, plus firmware upgrades.
- **Network documentation:** built and maintain ~50 customer network maps in Draw.io, using a custom library of the actual installed devices.
- **Automation & AI:** self-study of RAG, embeddings, vector databases, local LLMs (Ollama) and Python, with AI-assisted development.

EXPERIENCE

Network Technician · Fidoka S.r.l. Società Benefit, Marche & Umbria, Italy — Jan 2020 – Present

- Tier 1–2 and on-site support for business and residential customers on FWA and FTTH networks.
- Configure and deploy MikroTik, RADWIN, Ubiquiti and TP-Link (Omada) routers, switches, access points and radio links; monitor with The Dude; manage devices via WinBox and the CLI (SSH, Telnet, MAC Telnet).
- Indoor Wi-Fi coverage tests, IP camera integration with alarm systems and first-line VoIP troubleshooting on 3CX and FreePBX.
- Technical support in Italian and English.

Telecom Consultant (Fastweb) · OF Team, Gruppo Arco, Civitanova Marche, Italy — Jul 2017 – Jul 2018

- Technical support and service advisory for Fastweb residential customers.

Customer Technical Support · Bharti Airtel, India — 2010

- Inbound support for a major telecom operator: mobile data connectivity, APN configuration, plan recommendations.

SKILLS

Networking: VLAN, bridging, RSTP/STP, managed switches, subnetting, DHCP (pools, static leases), static IPs and gateways, DNS, NAT/CGNAT, PPPoE

Access & wireless networks: FWA, FTTH/ONT, PtP/PtMP links, Nstreme, Nv2, RF interference analysis, frequency planning, wireless backbone maintenance, Wi-Fi coverage testing

Security & remote access: MikroTik firewall (filter and NAT rules), WireGuard, IPsec, SSH, Telnet/MAC Telnet

Tools & equipment: MikroTik RouterOS (CLI, WinBox, scripting), The Dude, Draw.io, Linux, Wireshark; RADWIN, Ubiquiti, TP-Link Omada

VoIP: 3CX, FreePBX, SIP; Snom, Grandstream, Gigaset

AI & automation: RAG, embeddings, vector databases, local LLMs (Ollama), Python (AI-assisted development)

Languages: English (fluent), Italian (fluent), Hindi (fluent), Punjabi (native)

EDUCATION

Computer Science studies · University of Camerino (UNICAM) — 2017 – 2019

Technical Diploma, Maintenance & Technical Assistance · IPSIA "Renzo Frau" · 95/100, final two years completed in one — 2017
